

FELLOWSHIP IN FAMILY MEDICINE

ABOUT THE UNIVERSITY

Malla Reddy Vishwavidyapeeth is a reputed educational institution located in Hyderabad, Telangana, India. Recognized as a “Deemed to be University under Distinct (Existing) Category,” the university offers multidisciplinary programs in medical, dental, nursing, pharmaceutical sciences, engineering, and allied health sciences. The institution emphasizes academic excellence, clinical proficiency, innovation, and global collaborations, contributing significantly to advanced healthcare education and training.

PROGRAM OVERVIEW

The Fellowship in Family Medicine is a comprehensive clinical training program designed to equip physicians with expertise in primary care, preventive medicine, and holistic patient management across all age groups. The program focuses on:

- Comprehensive primary care and continuity of care
- Preventive medicine and health promotion
- Management of acute and chronic diseases
- Pediatric, adult, and geriatric care
- Mental health integration in primary care
- Emergency and trauma management
- Community-based healthcare practices

The program integrates **theoretical learning, clinical exposure, and hands-on training**, ensuring well-rounded clinical competence.

PROGRAM EDUCATIONAL OBJECTIVES (PEOS)

Graduates will be able to:

1. Provide comprehensive and continuous care for patients across all age groups.
 2. Apply preventive and promotive healthcare strategies in clinical practice.
 3. Manage acute and chronic medical conditions effectively.
 4. Deliver patient-centered and evidence-based primary healthcare.
-

PROGRAM OUTCOMES (POS)

1. **Comprehensive Patient Care:** Deliver holistic healthcare for individuals and families.

2. **Disease Management Expertise:** Diagnose and manage common acute and chronic conditions.
 3. **Emergency Care Skills:** Provide first-line management of emergencies and trauma.
 4. **Age-Specific Care:** Address pediatric, adult, and geriatric healthcare needs.
 5. **Mental Health Integration:** Incorporate mental health services into primary care.
 6. **Team-Based Care:** Collaborate with multidisciplinary healthcare professionals.
 7. **Evidence-Based Practice:** Apply clinical research to improve patient outcomes.
-

COURSE OUTCOMES (COS)

- **CO1:** Understand principles of primary care and patient continuity.
 - **CO2:** Implement preventive healthcare strategies including screening and vaccination.
 - **CO3:** Manage chronic diseases such as hypertension, diabetes, and respiratory conditions.
 - **CO4:** Provide maternal, pediatric, and geriatric care across life stages.
 - **CO5:** Deliver emergency and trauma care in primary settings.
 - **CO6:** Address community health and occupational health concerns.
-

PROGRAM-SPECIFIC OUTCOMES (PSOS)

1. Provide comprehensive primary care across diverse populations and age groups.
 2. Demonstrate competency in preventive, promotive, and curative healthcare practices.
 3. Integrate multidisciplinary approaches for holistic patient care.
-
