

FELLOWSHIP IN HEAD & NECK SURGERY

ABOUT THE UNIVERSITY

Malla Reddy Vishwavidyapeeth is a reputed educational institution located in Hyderabad, Telangana, India. Recognized as a “Deemed to be University under Distinct (Existing) Category,” the university offers multidisciplinary programs across medical, dental, nursing, pharmaceutical sciences, and allied health sciences. The institution emphasizes academic excellence, clinical expertise, innovation, and global collaboration in advancing healthcare education.

PROGRAM OVERVIEW

The Fellowship in Head & Neck Surgery is a specialized clinical program designed to develop expertise in the diagnosis and surgical management of diseases affecting the head and neck region, including tumors, infections, and structural abnormalities.

The program focuses on:

- Anatomy and pathology of head and neck regions
- Benign and malignant tumors
- Thyroid and salivary gland disorders
- Oral cavity, pharyngeal, and laryngeal diseases
- Neck dissections and reconstructive procedures
- Oncology and multidisciplinary cancer care

The program integrates **clinical exposure, theoretical learning, and hands-on surgical training**, ensuring comprehensive expertise in head and neck surgery.

(Deemed to be University)

PROGRAM EDUCATIONAL OBJECTIVES (PEOS)

Graduates will be able to:

1. Diagnose and manage head and neck diseases effectively.
 2. Perform complex surgical procedures including tumor resections and reconstructions.
 3. Manage oncological cases with multidisciplinary approaches.
 4. Deliver patient-centered and evidence-based surgical care.
-

PROGRAM OUTCOMES (POS)

1. **Clinical Expertise:** Diagnose and manage benign and malignant head and neck conditions.
 2. **Surgical Skills:** Perform procedures such as neck dissections, tumor excisions, and reconstructive surgeries.
 3. **Oncology Proficiency:** Manage head and neck cancers using surgical and multidisciplinary approaches.
 4. **Diagnostic Skills:** Utilize imaging and endoscopic techniques for evaluation.
 5. **Comprehensive Care:** Provide pre-operative, operative, and post-operative management.
 6. **Multidisciplinary Approach:** Collaborate with oncologists, radiologists, and reconstructive surgeons.
 7. **Evidence-Based Practice:** Apply current clinical guidelines and innovations in surgery.
-

COURSE OUTCOMES (COS)

- **CO1:** Understand anatomy and pathology of head and neck regions.
 - **CO2:** Diagnose and manage head and neck diseases.
 - **CO3:** Perform surgical procedures including tumor resection and reconstruction.
 - **CO4:** Manage oncological cases effectively.
 - **CO5:** Ensure comprehensive patient care and follow-up.
-

PROGRAM-SPECIFIC OUTCOMES (PSOS)

1. Demonstrate expertise in head and neck surgical procedures.
 2. Apply oncological and reconstructive surgical techniques effectively.
 3. Integrate multidisciplinary approaches in patient care.
-

(Deemed to be University)

PROGRAM DETAILS

- **Certificate Awarded by:** Malla Reddy Vishwavidyapeeth
 - **Program Duration:** One-Year Fellowship
 - **Mode of Delivery:** Clinical Training + Surgical Exposure + Theoretical Learning
-

ELIGIBILITY CRITERIA

- **Academic Qualification:** MBBS / MS/DNB (ENT) or related specialties
 - **Professional Requirement:** As per institutional guidelines
-

KEY FEATURES

- Specialized training in head and neck surgery
 - Hands-on exposure to oncological and reconstructive procedures
 - Training in tumor management and surgical techniques
 - Focus on thyroid, salivary gland, and oral cavity disorders
 - Integration of surgery with oncology and radiology
 - Emphasis on patient safety and surgical precision
 - Evidence-based clinical practice
-

LEARNING OUTCOMES

KNOWLEDGE & UNDERSTANDING

- Comprehensive understanding of head and neck diseases and surgical approaches.
-

COGNITIVE SKILLS

- Clinical decision-making in complex surgical and oncological cases.
-

PRACTICAL & PROFESSIONAL SKILLS

- Proficiency in surgical techniques and patient management.
 - Hands-on experience in operating theatres and clinical settings.
-

TRANSFERABLE SKILLS

- Patient counseling and multidisciplinary coordination.
 - Clinical documentation and case management.
-

SUBJECT-SPECIFIC SKILLS

- Advanced surgical and reconstructive techniques in head and neck care.
-

CURRICULUM MODULES – THEORY

- Anatomy of Head & Neck
- Head and Neck Tumors (Benign & Malignant)
- Thyroid and Salivary Gland Disorders
- Oral Cavity and Pharyngeal Diseases
- Neck Dissection Techniques
- Reconstructive Surgery
- Oncology and Multidisciplinary Care
- Diagnostic Imaging and Endoscopy

- Post-Operative Care and Complications
 - Advances in Head & Neck Surgery
-

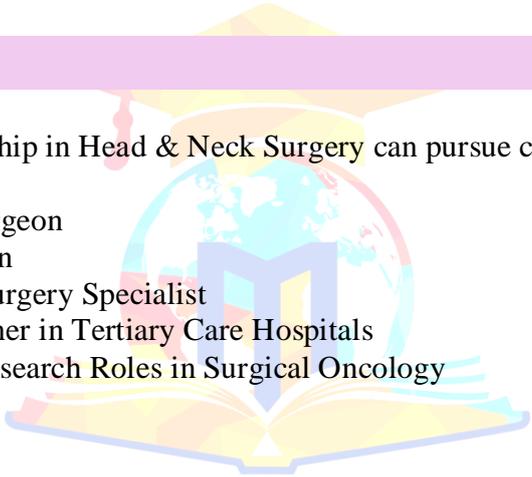

PRACTICAL COURSEWORK

- Clinical training in ENT and head & neck surgery units
 - Diagnosis and management of head and neck conditions
 - Observation and assistance in major surgical procedures
 - Tumor resection and reconstructive surgery exposure
 - Patient evaluation and treatment planning
 - Post-operative care and follow-up
 - Case documentation and clinical evaluation
-

CAREER OUTCOMES

Graduates of the Fellowship in Head & Neck Surgery can pursue careers as:

- Head & Neck Surgeon
- ENT Oncosurgeon
- Reconstructive Surgery Specialist
- Clinical Practitioner in Tertiary Care Hospitals
- Academic and Research Roles in Surgical Oncology
